The US House of Representatives Select Committee on Children, Youth, and Families will conduct a hearing on "Child Care: Exploring Private and Public Sector Approaches" on Monday, June 18, beginning at 9:30 a.m. in Toland Hall.

Before the hearing, the congressional committee will conduct a site visit at the UCSF Child Care/Study Center, which was selected because it is a work-site model and has academic use.

The committee, chaired by Representative George Miller of Contra Costa County, has been conducting hearings across the country on child care issues. As part of its ongoing child care initiative, the committee is exploring possible child care options and issues, including innovative state-funded programs, resource and referral networks, public

The first phase in opening the new UCSF Children's Medical Center took place on Monday, June 4, when pediatric patients on 6-Moffitt moved into new facilities on 6-Long.

The majority of rooms on 6-Long are private or two-bed rooms and all have been designed to make the hospital stay for children and their families as warm, cheerful, pleasant, and comfortable as possible, according to Melvin M. Grumbach, MD, chair of the Department of Pediatrics. The new rooms include sleep chairs and sofa beds for parents.

With the opening of 6-Long, 6-Moffitt will undergo extensive renovation, including expansion of the Pediatric Clinical Research Center to meet program needs. Long-range plans for the sixth floor Long/Moffitt complex include

Michael G. Whisler of San Francisco received the Francis A. Sooy Chancellor's Cup as the outstanding UCSF graduating dental school student at this year's School of Dentistry commencement on Saturday, June 9.

The second recipient of this annual award, he was selected by a vote of faculty and classmates.

At the School of Dentistry's annual precommencement awards ceremony in May, Whisler was awarded the Milton F. and Mary Gabbs Award in recognition of intellectual achievement and professionalism, the Robert W. Rule, Jr., Award for "high academic achievement, superior clinical skills, exemplary character, and highest potential to succeed in the profession," and the Northern California Section of the American College of Dentistry Award to the fourth-year student who best represents professionalism. He also has been named a Regents Scholar at UCSF for the last four years.

Previous honors won by Whisler include the UCSF Dental Alumni Association Professional Development Award (1983) and the Associated Dental Students Certificate of Appreciation and Recognition (1980-82).

Whisler earned his BS in zoology from California State University, Long Beach, where he was a member of Phi Beta Kappa. This fall he will enter the UCSF School of Dentistry graduate program in orthodontics.

Three UCSF School of Nursing students received distinguished awards at commencement exercises on Saturday, June 9: Rae L. Bradshaw of Foster City, Geoffrey McEnany of Canton, Massachusetts, and Hester Y. Kenneth of San Francisco.

- Bradshaw won the Florence Nightingale Award as "the student who, in undergraduate studies, best demonstrates leadership, scholarship, and clinical expertise." A BA graduate in religious studies from Occidental College in Los Angeles, Bradshaw works for the Mid-Peninsula Home Health Service and hospice in Palo Alto and as a

NEWS BRIEFS

(Child care hearing continued)

and private employer-sponsored initiatives, child care for children with disabilities, respite care, sick child care, solutions to the latch-key problem, connections between child care and child abuse, child care for migrant children, and other approaches to child care.

Chancellor Krevans is scheduled to speak on work-site child care during a morning panel of the hearing.

Construction of the expanded west-side parking lot behind the School of Dentistry has begun. The project will be done in several phases to keep to a minimum the temporary reduction in existing parking facilities. Approximately 45 spaces, however, will be lost during the year-long construction period.

In order to mitigate the effect of these losses on parking for patients who use that area, several measures are being taken:

- decal holders now using the Fourth and Kirkham area facilities are asked to park in the garage to the extent feasible,
- stack parking in the garage will be required more frequently,
- the "early bird" discounted, all-day parking rate will be eliminated beginning July 1,
- staff, students, and other all-day parkers who drive alone are encouraged to use alternate commuting methods. The Transportation Office will provide help in using public transportation and in arranging for participation in vanpools, carpools, the Marin Bus Club, and the new Skyliner: Pacifica or Skyliner: San Bruno. Call x1511 for more information.

In addition, beginning July 2, public parking rates in the garage and the fee lots near Fourth and Kirkham will be as follows: first hour $1, 1-2 hours $2, 2-3 hours $3, 3-6 hours $4, 6-7 hours $5, daily maximum $6.

For further information about the construction call Bob Cannon at x2496 or Bill Stevens at x2566.

Is your department prepared for an earthquake? The UCSF Police Department has rented a 30-minute film, entitled "Our Active Earth," which contains general earthquake preparedness information for home and work. To arrange for a showing of the film in your department, contact Sergeant David Wright at x1414.

(Children's Medical Center continued)

expansion and modernization of the Pediatric Intensive Care Unit, an adolescent-age unit, a children's playroom, adolescent recreational room, parents' facilities, and a sleep room with kitchen and laundry facilities. Also planned is modernization of the Neonatal Intensive Care Unit on 15-Moffitt.

When finished, the UCSF Children's Medical Center will function as a complete infant, children's, and adolescent specialty hospital within the UCSF Hospitals and Clinics complex.

J. Michael Bishop, MD, director of the Hooper Foundation, and Harold E. Varmus, MD, professor of microbiology, have won the $100,000 1984 Alfred P. Sloan Prize for their work on oncogenes, which has had important implications for research on cancer's cause and prevention.

The two also will share an additional $30,000 to support a workshop or conference on their work.

The Sloan prize was one of three given by the General Motors Cancer Research Foundation. The other two recipients were Robert C. Gallo, MD, of the National Cancer Institute in Bethesda, who was the first to isolate a virus causing a human cancer; and physicist Barnett Rosenberg, PhD, of the Barros Research Institute and Michigan State University, who developed a drug, cisplatin, which is credited with saving the lives of thousands of patients suffering from testicular cancer.

All departments will be called by the Payroll Office on Monday, June 25, to pick up their copy of the Preliminary Staffing List of Salaried Staff Personnel. The list shows the FTE and funds authorized for each department.

Departments must review the data, make appropriate changes, and return the list to the Accounting Satellite Office, Room S B4A, no later than 3 p.m. on Thursday, June 28.

A workshop on staffing requirements is scheduled for Thursday from 1 to 3 p.m. in Room S 214. For further information call x1850.

High school and college students can explore a career in the medical field while providing an invaluable service by being a part of the UCSF Summer Student Volunteer Program from June 25 to August 31.

Orientation and training for those students selected will be held on Tuesday, June 19, from 10 a.m. to 3:30 p.m. in Room C 130. The orientation program will include a tour of the Hospitals and Clinics. For further information call x1196.

The Friends of Langley Porter Psychiatric Institute has donated over $1,250 to the LPPI Library for the purchase of a microfiche reader and a microfilm edition of Index Medicus, volumes 1 to 6. Replacing printed volumes of material with microfiche will help alleviate the library's current space problem.

Lloyd H. Smith, Jr., MD, has resigned as chairman of the Department of Medicine, a post he has held for some 20 years. Smith will remain at UCSF as professor of medicine.

Smith plans to devote more time to the Howard Hughes Medical Institute, continue his work on textbooks, co-edit with Malcolm Watts, MD, the *Western Journal of Medicine,* and continue to serve on the American Board of Internal Medicine.

Honored this year by the Association of Professors of Medicine with the prestigious "Robert H. Williams Distinguished Chairman of Medicine Award," Smith was elected a master of the American College of Physicians in 1983. He is past president of the Association of American Physicians and the Association of Professors of Medicine. In 1981 he was appointed a Macy Faculty Scholar to study medical education in Australia and New Zealand as part of his editing of the seminal *Cecil-Loeb Textbook of Medicine.*

Dean Rudi Schmid has set up a search committee to fill Smith's position.

The first national working institute to discuss how to get women's health issues into higher education will be sponsored by UCSF and the US Department of Education from July 8 to 21 at UC-Berkeley.

The program, entitled "Women, Health and Healing," will bring together 35 faculty from community and state colleges, universities, and nursing and medical schools throughout the country. Specialists in the fields of nursing, medicine, public health, social welfare, and the social and behavioral sciences will look at health needs of aging women, minority women, women in prison, and lesbians. In addition, sessions will examine drug and alcohol abuse and nutrition and diet as they relate to women's health.

Dorothy Rice, former director of the National Center on Health Services Statistics, now a UCSF lecturer, will deliver the keynote address, "The Aging Population." M. Margaret Clark, PhD, chair of the UCSF Medical Anthropology Program, will conclude the institute with a lecture on "Views for the Future."

Sponsored by a grant from the Fund for Improvement for Post-Secondary Education and by the UCSF School of Nursing Department of Social and Behavioral Sciences, the program has been organized by Virginia Olesen, PhD, professor of sociology; Ellen Lewin, PhD, assistant professor of medical anthropology; and Sheryl Ruzek, PhD, MPH, adjunct associate professor of sociology.

The 1984-85 Graduate Student Association officers are: president for internal affairs—Marilyn Boros, physiological nursing; president for external affairs—Louise Bourassa, nursing; vice president for nursing—Chuck Marion, nursing; vice president for basic and social sciences—Terry Matsunaga, pharmaceutical chemistry; vice president for finance—Peter Linfoot, experimental pathology.

Twenty-two UCSF physicians have been listed as "The Best Medical Specialists in the US" in the first part of a survey listed in the May issue of the magazine *Town & Country.*

Some 700 MDs across the country were listed in 12 categories. The UCSF MDs were: cardiologists Kanu Chatterjee and Elliot Rapaport; heart surgeon Paul A. Ebert; lung specialist John F. Murray; neurologist Robert A. Fishman; neurosurgeon Charles B. Wilson; oral surgeon William H. Ware; ophthalmologists Robert N. Shaffer, Chandler R. Dawson, Max Fine, Wallace M. Friedman, Alexander R. Irvine, Conor C. O'Malley, Ariah Schwartz, and William F. Hoyt; GI disease specialists Martin Brotman, John V. Carbone, Robert S. Peters, Howard A. Shapiro, and Marvin H. Sleisenger; and GI surgeon Lawrence W. Way.

This *Town & Country* guide is an update of a 1978 survey, which queried some 1,000 physicians as to whom they would turn in case of their own illness. More than 300 physicians were queried to make this 1984 version. Part II of "The Best Medical Specialists in the US" will follow in the June issue of *Town & Country.*

Nominations are being accepted for the Dr. J. Elliott Royer Award, presented this year to an East Bay or San Francisco physician on the basis of outstanding contributions to the field of psychiatry.

UCSF presents the award alternately each year either to neurologists or psychiatrists. It includes a cash grant of $15,000.

This year's nominees must be active in the field of psychiatry in the counties of San Francisco, Contra Costa, or Alameda. Letters of recommendation should be submitted by Friday, July 20, to: The Royer Committee, Dean's Office, School of Medicine, S 224. For further information call x2342.

IN ERROR

Ronald Schumacher's appointment was listed incorrectly as associate director of hospital information systems in the last issue of *Today & Tomorrow.* His correct title is associate director of Hospitals and Clinics in charge of hospital information systems.
